

## The Professional solutions for Redcord exercise

- Exercise the entire body with one piece of equipment
- Includes a large variety of slings and accessories
- Easy to adjust with body weight in the slings

**Important:** The packages cannot replace the Redcord Workstation Professional for use in treatment, and will not make you able to offer complete Neurac treatment.

Visit [www.redcord.com](http://www.redcord.com) to read about the Redcord educational program.

## Redcord Rehab Pro Plus

The most comprehensive solution to provide a wide range of exercises for the whole body. The ideal solution for professional rehabilitation.

The Redcord AXIS rotation device, and the large selection of Redcord slings, balance cushions and specially designed elastic cords for unloading bodyweight allows you to perform corrective exercises regardless of your client's physical level.

## Redcord Rehab Pro

This solution is a light version of the Redcord Rehab Pro Plus.

It still allows a wide range of Redcord corrective exercises.

Perform simple self-mobilization exercises by releasing the ropes from the Redcord Trainer with the Redcord rope release.
